plpelines		
State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits.		

9. Estimated cost of works\$25,000.00
10. Estimated time required to construct works 5 years
11. Remarks This water has been supplied to these properties by the Virginia City Water Co. until recently. Present owners of Water Co. and pipelines and/or flumes have abandoned conveyances recently due to their statement that the need for water no longer existed and as a result the conveyance has deteriorated into disuse. A new conveyance (pipeline) is now being constructed in its place and request is made to provide an outlet to permit servicing of abovementioned properties as in the past. By Virtue of the statements above. I do not waive any vested rights as to the use of waters applied in past years on land as mentioned under permit.
